Authority for this Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the VOR Federal airway route structure in the eastern United States to maintain the efficient flow of air traffic.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to amend VOR Federal airway V-175 in the vicinity of Malden, MO, due to the planned decommissioning of the Malden, MO, VORTAC as part of the FAA VOR MON program. The proposed route change is described below.

V-175: V-175 currently consists of three separate parts: From Malden, MO; Vichy, MO; to Hallsville, MO; From Kirksville, MO; to Des Moines, IA; and From Worthington, MN; Redwood Falls, MN; to Alexandria, MN.

The FAA proposes to remove the Malden VORTAC from the route description. As proposed, V-175 would extend, in three parts: From Vichy, MO, to Hallsville, MO; From Kirksville, MO, to Des Moines, IA; and From Worthington, MN, Redwood Falls, MN to Alexandria, MN.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document would be subsequently published in FAA Order 7400.11.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this

proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
